SERVICES TO MEET THE

NEEDS OF A WOMEN

AT EVERY STAGE OF LIFE

**DEPARTMENT OF
OBSTETRICS, GYNAECOLOGY
AND INFERTILITY**

ABOUT US

A woman and her health is the key element adding to the smooth harmony of our society . We are privileged to say that our team highly acknowledge this and work towards their health , safety and provides full spectrum of Obstetrics and Gynaecologic care.

Whether a woman comes in for a routine gynaecological exam or needs treatment for a disorder, the advanced OB/GYN medical professionals at MINT hospitals offers to educate and care for all our patients with exception skill and expertise irrespective of the age or stage of a woman's life

WHAT WE DO

Our full range of medical care for women is provided by physicians specializing in general obstetrics and gynecology services as well as subspecialists with expertise in areas such as high-risk pregnancy, infertility, urogynecology, pelvic pain, menopause, women's mental health needs, and women's wellness and exercise.
